I can do something like that as long as we talk about more than just the price (use case, traction, partnerships)

Anything that can speak to everything that we're trying to do!

Awesome stuff - thanks, Miguel!

[REDACTED] what do you think about proactively Tweeting about the increase in XRP? On the back of the BTMU news, it looks like the volume is still at the expense of Bitcoin.

Hey [REDACTED]

I think the rally last week was largely BTC inspired. Interest from Asia in the last 24 hours however seems to stem from the BTMU announcement.

<http://asia.nikkei.com/Business/Deals/Japan-s-BTMU-plans-international-fund-transfers-via-blockchain-in-2018>

Hope that helps!

Hey Miguel,

XRP is up 79% over the last 24 hours.

Any idea what is driving these sharp gains?

Several alternative asset protocols have been drawing significant attention lately and experiencing sharp gains.

Ripple, Dash and Ethereum have all jumped sharply.

I think traders may have simply turned their attention to XRP as the latest digital currency they want to buy.

Does that sound accurate?
